

INR 93,069 cr	INR 1,873 cr	3.27%	1.29%
FY26 loan book	FY26 PAT	Net interest margin	Net NPA

BUSINESS OVERVIEW

India's largest listed pure-play green financing NBFC and a Government of India enterprise, funding renewable generation, storage, green hydrogen, manufacturing and related infrastructure.

Period	Revenue / loan book	PAT	PAT margin / net NPA
FY24	58,775	1,252	0.99%
FY25	76,282	1,699	1.35%
FY26	93,069	1,873	1.29%

BUSINESS MIX

Solar and state-utility financing represent about half the portfolio; wind, manufacturing, hydro, ethanol and emerging technologies diversify exposure. AAA domestic ratings support funding access.

CATALYSTS	KEY RISKS
- India's 500 GW non-fossil ambition - Funding diversification through bonds and ECBs - Recoveries and operating leverage	- Equity needs and dilution - Project / state-utility concentration - Funding-cost pressure

ANALYST TAKEAWAY

Structural growth is compelling, but lender valuation must reflect equity reinvestment and dilution, not only headline loan-book growth.
