RECENT UPDATES & INVESTOR WATCHPOINTS

- FY26 delivery: gross revenue reached INR 80,867 crore, EBITDA INR 25,208 crore and PAT INR 20,286 crore; EPS was INR 16.20.
- Portfolio comparability: FY24-FY26 figures exclude the Hotels business transferred to ITC Hotels Limited; the profile flags this break explicitly.
- Shareholder returns: the Board recommended total FY26 dividend of INR 14.50 per share, continuing ITC's uninterrupted dividend record.
- Tax watchpoint: the cigarette taxation structure changed from 1 February 2026; management states gross revenue and excise are not strictly comparable with the prior year.
- FMCG scale-up: FMCG-Others FY26 segment revenue was INR 24,210 crore and EBITDA INR 2,412 crore, keeping margin expansion and brand investment central to the next phase.
- Capital discipline: the balance sheet remains liquid; current borrowings rose in FY26, while cash and current investments provide substantial offset.

Method: audited standalone figures. EBITDA margin is EBITDA divided by reported gross revenue. 'NM' = not meaningful because ITC identifies debt-equity as not relevant given negligible structural debt. Market value calculations use the 17-Jul-2026 close; liquid funds include cash/other bank balances and current investments.
